

DON'T MISS HIGHCON AT IADD-FSEA Odyssey! Digital Finishing Adding Value

May 5, 2015

Highcon will be appearing at the 2015 IAD-FSEA Odyssey at the Schaumburg Convention Center, May 13th- 15th.

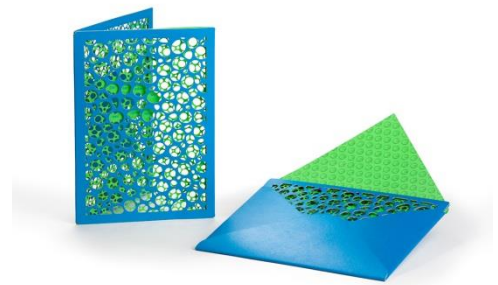

At the Highcon booth #905, you will be able to see both real customer jobs, digitally cut and creased on the Highcon™ Euclid, as well as some more extreme products, proving the infinite design capabilities of this revolutionary solution.

These samples demonstrate the intricate cutouts, etching, creasing and versioning that take finishing to the next level, adding value after print. [lunchboxes2](#)

Don't miss the chance to learn more about the key benefits of the Highcon Euclid and digital finishing:

- Customer responsiveness
- Extended product offering
- Improved production flow

You can learn more at the panel session "Finishing Options for the World of Digital Printing" on Friday, May 15th at 9 a.m. in Schaumburg G Room, where I will explain a lot more about the Euclid and its capabilities.

My team and I look forward to seeing you there!

Best regards

Vic Stalam,

President, Highcon Inc.
