

September 2017

Dear Tom,

Hopefully you all had a good, relaxing summer with time to spend with family and on vacation. Here at Highcon, things have been pretty busy regardless of the holiday time.

Hera Printing Corp. - "It's all about versatility and turnaround time"

The latest release on the Highcon video channel is the story of Hera Printing Corp out of Puerto Rico. This family business has always been a benchmark for quality and has been using the Highcon Euclid digital cutting and creasing machine since mid 2016 to generate new applications, gain new customers and enter new markets.

As we send this out to you all, we are keeping our fingers crossed that Hera haven't suffered too badly from Hurricane Irma!

"Nowadays you have to be quicker, you have to be affordable and you have to be great! The Highcon system delivers all of that"

Komori Europe and Highcon Announce Strategic Partnership

We are proud to announce the extension of our strategic alliance with Komori to Europe! The Highcon Euclid III is already installed at the Komori Graphic Center-Europe in Utrecht and visitors to the Open House at the on 4 and 5 October 2017 will be able to see the machine in action.

"We already have several joint customers and are proud that Komori, with their 100 year focus on reliability and quality, understands the true value our technology can bring to their customers, whether offset or digital."

KOMORI

Jens Henrik Osmundsen, Highcon
VP Global Sales
