

July 2017

Dear Bill,

This month we would like to introduce you to another exciting Highcon customer - Drukkerij Wihabo from the Netherlands. This is a truly creative business that prides itself on rapid turnaround of the most complex of jobs.

Digital All the Way

Drukkerij Wihabo in the Netherlands installed the Highcon Euclid IIIS digital cutting and creasing machine as part of a complete digital lineup together with the HP Indigo 10000 digital press. They have been growing their business thanks to the rapid turnaround of high value products.

"A lot of new customers are coming. We show them new opportunities, and new products . At first they come only for that, but then they are bringing a lot of other work, and so the market is growing."

Joris Bosch, Technical Director,
drukkerij wihabo
