

# DataLine Digital Center (DDC)

Demo, training and experience

Welcome & Travel Guide

## Welcome to the DataLine Digital Center

Greetings,

Let us take this opportunity to welcome you to the DataLine Digital Center. Whether you are starting your journey on a level one course, or returning to take one of our advanced courses, we are sure you will have a rewarding learning experience.

During the week your instructor will take you through the curriculum. Please take time to ask questions and use their experience.

We also want to introduce ourselves to those of you who do not know us already. DataLine Technology, a.s. is a channel partner of Hewlett-Packard and has been a supplier of solutions for the whole printing industry since 1991. The company offers comprehensive supplies of equipment, software and above-standard service support for their customers.

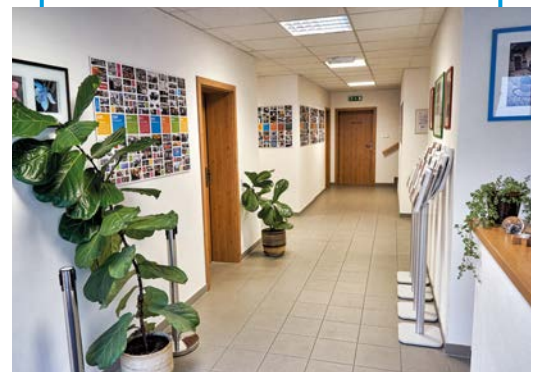

The welcome pack also contains our customer guide which gives ideas about what to do in the evening to explore the local area's rich culture. The guide is continually updated with feedback from customers like you. If you have any comments or tips do not hesitate to speak with your instructor so it can be included.

Our goal is to make sure your time at the DataLine Digital Center is as productive and beneficial as possible. If this is not happening please let us know during the week so we can match your expectations while you are here.

We look forward to meeting you and hearing your thoughts, about the training as well as the whole HP Indigo experience.

**Kind regards,**

The DataLine Training Team

# Travel Information
